

Adobe Creative Cloud - How to Login and Use Adobe Products

In order to access Adobe products on select IT computer lab and public SU computers, you will need to login to Adobe using your SU login and password.

****Note:** Guest users using SU temp accounts must create their own personal Adobe ID by going to <https://www.adobe.com> and creating their account using a personal email address. SU temp accounts do not have direct access to login to the Adobe Creative Cloud applications.

Directions for accessing Adobe applications are:

*****As of Fall 2019 the use of Adobe Creative Cloud requires faculty, staff, and students to login to the Adobe Creative Cloud site in order to use Adobe applications.**

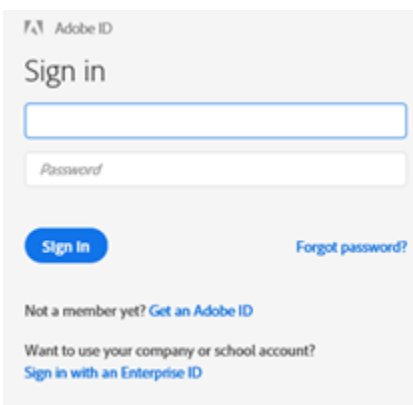

- If you are on a **Windows** based PC click on the Windows **Logo** in the bottom left corner of the screen.
- Double Click the **Adobe** program desired from the list of available applications.

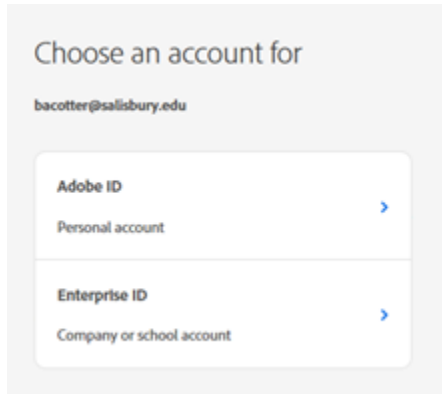

- If you are on a **Mac** at the top of your screen choose **Go** and then **Applications**. Select the folder of the **Adobe** application you wish to use and double click the Application icon.

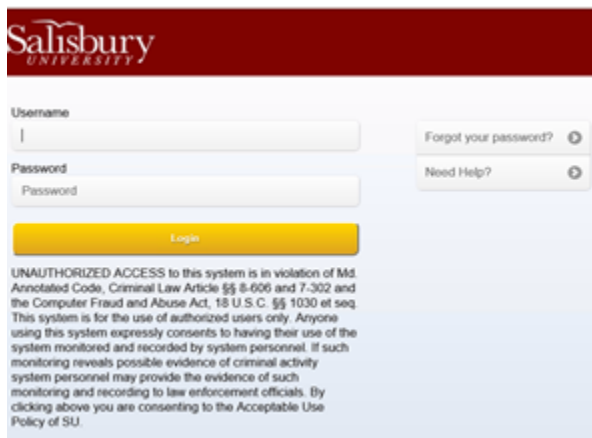

- Once the application opens it will take you to a **login** screen.

- Enter your **SU email address** and hit Tab.
- If prompted to choose an account select the **Enterprise ID Login**.

- You will be forwarded to the standard **SU login** screen.
- Enter your **SU username and password**.

- You are now logged in and ready to use the product.
